Skills

Languages: *HTML, CSS, JavaScript, Node JS, TypeScript, DSA, C/C++, Java, Python, PHP, Mongo DB, SQL*

Technologies & Tools: *ReactJS, Express JS, Next JS, Socket IO, Tailwind CSS, GSAP, Git, GitHub, Hostinger, Netlify, Vercel*

Awards and Certificates

Hackathon 2ⁿᵈ Position   Year – April 2024
Indian Institute of Technology (BHU) Varanasi

Hackathon 1ˢᵗ Position   Year – January 2024
Government Engineering College, Siwan

Work Experience

Full Stack Developer, Intern   May 2024 – Present
SewaCity, Remote

Involved in developing and deploying web applications, contributing to software architecture decisions, and optimizing code performance in collaboration with the SewaCity team.

Project Work

Remote Code Execution (RCE) System
We have developed a web-based RCE platform using React JS, Node JS, Express JS, Tailwind CSS, and Mongo DB, enabling users to write, execute, and test code remotely with secure and efficient performance.
Technologies used: React JS, Node JS, Express JS, Tailwind CSS, MongoDB

Campus Event and Club Management System
We have developed a web-based platform using React JS, Node JS, Express JS, Tailwind CSS, and MongoDB to streamline campus events and club activities with dedicated panels for professors, students, administrators, club managers, and campus ambassadors.
Technologies used: React JS, Node JS, Express JS, Tailwind CSS, MongoDB

Social Media Web App
We have developed a web-based application for social media interaction, featuring user profiles, posts, likes, shares, and comments using React JS, Node JS, Express JS, Tailwind CSS, Redux Toolkit, and MongoDB.
Technologies used: React JS, Node JS, Express JS, Tailwind CSS, Redux Toolkit, MongoDB

E-commerce Web App

We have developed a web application using React JS, Express JS, Node JS, Redux Toolkit, and MongoDB for creating an e-commerce platform, enabling users to browse products, add items to a cart, make purchases, and manage orders efficiently.
Technologies used: React JS, Node JS, Express JS, Redux Toolkit, MongoDB

CRUD Operations System

We have developed a web application using React.js and Node.js to perform CRUD (Create, Read, Update, Delete) operations on a database, they were ensuring efficient data management and seamless user interaction.
Technologies used: React JS, Node JS

My Portfolio

We have developed a personal portfolio website using HTML, CSS, JavaScript, PHP, and My SQL to showcase projects, skills, and achievements, providing a professional platform for career advancement and networking.
Technologies used: HTML, CSS, JavaScript, PHP, MySQL

Education

BTech in Computer Science & Engineering (IOT) **June 2022 – Present**
Government Engineering College, Siwan, Siwan
GPA: 6.89

12th Grade
  March 2020 – April 2022
Lalit Narayan Janta College, Jhanjharpur, Jhanjharpur

  Feb 2019 – March 2020
10th Grade
Kejriwal High School, Jhanjharpur, Jhanjharpur

Language

• English, Hindi

Interest

• Coding, Chess
